

Projected Results-Based Funding By School if Used FY 2016 Data

1. Represents Executive's proposal to provide additional resources to top-performing schools.
2. Data have been supplied by OSPB and reformatted by JLBC Staff.
3. Only includes schools that would have received Results-Based Funding in FY 2017 based on AzMerit test scores and "free lunch" (FRPL) counts from FY 2016. Actual distributed amounts for FY 2018 would depend on AzMerit scores and FRPL counts from FY 2017.
4. OSPB has provided the following observations regarding the data: "All projections should be viewed solely as a means to better understand the initiatives and not a guarantee of funding for any specific district or charter. Additionally, the Executive intends to work with the legislature to find a mutually agreeable means to distribute the funding. The method that is agreed upon and any requirements of recipients could affect which district and charters qualify for funding as well as the amount received."
5. General Fund costs of this program would have totaled an estimated \$38.4 million in FY 2017. The Executive has proposed \$37.6 million in FY 2018 funding.
6. The Executive proposal awards \$400 per student in schools ranked among the top 10% of lower-income schools (defined as schools with 60%+ FRPL eligibility). These schools would compete only against other lower-income schools for funding. An average Math and English Language Arts (ELA) passing rate above 41% would rank a lower-income school in the top 10% of lower-income schools.
7. The Executive proposal awards \$225 per student in any school ranked among the top 10% of all schools. An average Math and ELA passing rate above 65% would rank a school in the top 10% of all schools. (A lower-income school ranking in the top 10% of all schools would still receive only the \$400 per pupil bonus).

2/8/2017
